Project Roles (Iteration #1):

Integration Team: *We work on integrating(connecting) the separate systems into one cohesive unit.*

Members:

Name	Task	Details
Lara Agabrian	Use_Case Descriptions	They will list and give a detailed description of each use case.
Mateo Moreno De La Rosa	Use_Case Diagram	They will visualize the use_cases into a use_case diagram

Responsibilities:

- Any team member must notify the rest of the group before performing a commit onto the main branch, or any official branches for the team.

- Participation will be crucial and every team member has the responsibility to attend all meetings, be it online or otherwise.

- If a team member may be incapable of attending a meeting or a demo. It is their responsibility to notify the rest of the group at least 12 hours in advance.

- The project timeline is meant to be followed with extreme flexibility (After all, there might be instances where one task may take longer than others). In this event, it is the responsibility of the team leader to adjust the timeline based on the delayed task.

- A new team leader may be elected in the event of an accident or negligence on the part of the former team leader.

- Please be respectful to your fellow team members and maintain an organized working environment.
